

# U.S. PUBLIC SERVICE ACADEMY

**I**magine a college where you could thrive academically and socially. Where you could explore your potential for leadership. Where you could meet thousands of other young people like you. Where you wouldn't spend four years worrying about your rising debt and adjusting your choices accordingly. And where, when you were all done, you could feel like you'd repaid the community for the education you'd received.

**T**hat's the basic idea behind the U.S. Public Service Academy. Sounds great, right?

**U**nfortunately, it doesn't exist.

**B**ut that can change.

**W**e need your help. Go to [www.uspublicserviceacademy.org](http://www.uspublicserviceacademy.org) to read more. Sign a petition. Join your state's advisory board. And tell your friends.

**O**therwise, the U.S. Public Service Academy will never be anything but a great idea.
